ABOUT ME

Motivated fourth-year Computer Science Engineering student at the Institute of Technology of Cambodia (ITC) with a strong interest in cybersecurity. Familiar with Linux, networking, and security fundamentals through academic projects and hands-on training. Seeking an IT Security Internship to gain practical experience, strengthen technical skills, and grow as a cybersecurity professional.

EDUCATION

Bachelor of Computer Science | Institute of Technology of Cambodia **2023 – Present**

Short Course: SOC Analyst | ThinkCyber India (ANT Training Center) **2025 – Present**

SKILLS

- **Cybersecurity & Tools:** Splunk SIEM, Log Analysis, Threat Hunting, Incident Response, MITRE ATT&CK, Nmap, Wireshark, Hydra, pfSense, Snort.
- **Networking:** Cisco Packet Tracer, TCP/IP Protocols, Subnetting, IP Addressing.
- **Development & Infrastructure:** Linux Administration (Kali Linux, Ubuntu), Git, JavaScript, HTML, CSS, Vue.js, NestJS.
- **Soft Skills:** Analytical Thinking, Problem-Solving, Teamwork, Communication, Cross-Functional Collaboration.
- **Languages:** Khmer (Native), English (B1 – Intermediate).

PROJECTS AND EXPERIENCES

CYBER SHIELD CHECKER | 2026

- Developed a SOC monitoring and incident management platform using NestJS, PostgreSQL, and Linux.
- Implemented MITRE ATT&CK mapping, IOC tracking, alert generation, and incident reporting features.
- Developed features for incident tracking and centralized case management.
- Simulated SOC analyst operations including detection, analysis, and response activities.

SOC ANALYST LAB | 2026

- Practiced security event and log analysis using Splunk SIEM.
- Applied MITRE ATT&CK concepts to understand attack techniques and investigation workflows.
- Learned threat hunting methodologies and alert investigation processes.
- Practiced incident response procedures in simulated cybersecurity scenarios.

NETWORK INFRASTRUCTURE AND DESIGN

- Designed and configured VLANs, DHCP services, and routing protocols using Cisco Packet Tracer.
- Implemented network segmentation and basic security controls to improve network security.
- Performed connectivity testing, troubleshooting, and IP addressing configuration.
- Documented network topology and validated communication between multiple network segments.

ACHIEVEMENTS & CERTIFICATES

- **SOC Analyst** — ThinkCyber India
- **Network Research** — ThinkCyber India
- **Python Fundamentals** — ThinkCyber India
- **Linux Fundamentals** — ThinkCyber India
- **Intro to Cyber** — ThinkCyber India
